Welcome to, **Advannotech** Integrated  
Tech Solutions

# About Us

**Advannotech** is the leading provider of integrated technology and enterprise management solutions that includes multi-disciplinary professional services to public and private entities.

**Advannotech** employs a team of innovative, solution-driven, experienced, and dedicated professionals, who are industry specialists. We have established ourselves as the preferred technology and services provider, in varying capacities, to the majority of public and private institutions, property owners, including local provincial and national government departments, state-owned entities in general.

## Vision

Our vision is to be a dominant force in the integrated technology space, providing solutions that add value to your business.

## Mission

To be a partner of choice which designs, supplies, installs and supports all building operations and management technology solutions for both Private and Public Sector Clients.

## Values

Core to our business are our values which include:

- Integrity
- Teamwork
- Agility
- Innovation
- and Excellence

# Founder of Advannotech

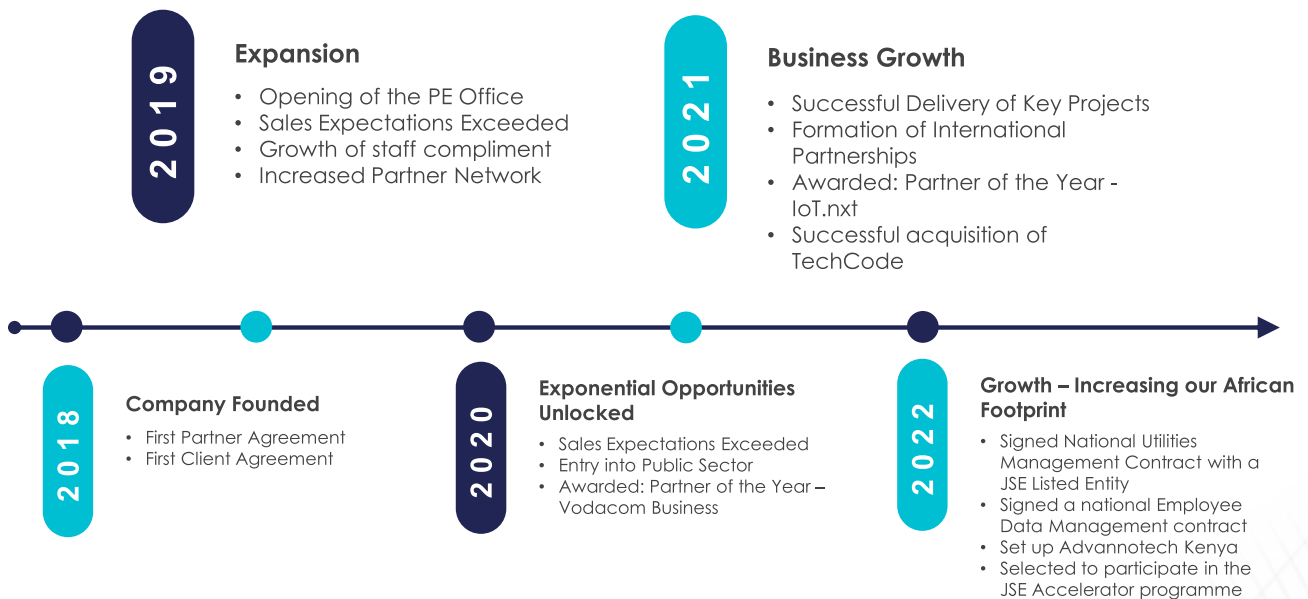

**Xolani Zuma**  
Chief Executive Officer

Xolani is a purpose-driven entrepreneur and a seasoned Facilities Management Director. With a successful career spanning well over 20yrs, he founded Advannotech to close the gap between Facilities Management and Technology to drive the value therein.

He has held roles such as VP: Facilities – Corporate Real Estate at Absa; Managing Director: Integrated FM Solutions at Servest; Board Member and Director at SAFMA. He is highly skilled in Business Strategy & Management, Portfolio Management and Project Management. His ability to deliver value to customers has been proven in the rapid growth of Advannotech since its inception in 2018.

## Our Timeline

# Consultancy

Facilities Management – Operating your building/facility should not be costly. Our expertise and experience in the space means that we understand FM from both the consumer and service provider perspectives to give you the best advice and help you design a world-class FM Strategy.

We are strategic in our approach and make use of cutting-edge technology to ensure that we unlock maximum proficiency in the utilization of your facility and its infrastructure.

## Our Industries

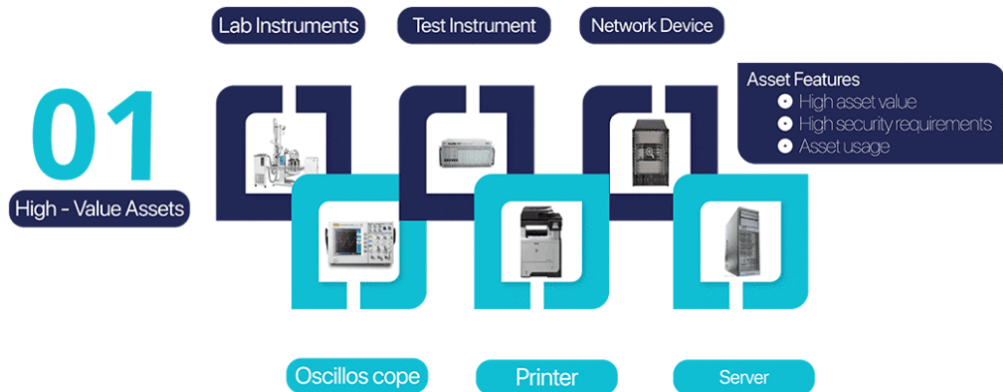

# Tech Solutions

## Asset Tracking

Assets are fundamental to the daily operations of an enterprise. At Advannotech, we focus on asset tracking and management to support the achievement of organizational strategic goals.

## IoT

Consolidated view of your entire business. We Cross-Integrate and digitize systems and equipment to Minimize Operational Costs and create real-time Digital Visibility and Control, Optimize Operational Efficiency.

# Tech Solutions

## Retail

Our Smart technologies are designed to give the consumer a greater, faster, safer and smarter experience when shopping. This includes Queue Management where applicable, monitoring and management of critical operations infrastructure.

## Information and Communication Technologies

Our technology enables you to Unify your communication by integrating your telecommunications as well as necessary enterprise software, middleware, storage and audio-visual systems to enable users to access, store, transmit, and manipulate information.

## Integrated Security and Time & Attendance Systems

**Advannotech** unlocks barriers between systems. We enable the Unifying of Systems to allow for efficiently controlled, monitored and managed secured environment – enabling seamless operation between access control including door/gate access, time & attendance, video surveillance & LPR, alarm system, and Visitor Management applications.

- Attendance Calculation and Reports
- Easy Integration with API
- Multi-languages
- Mobile Application

# Tech Solutions

## Smart Healthcare

Advannotech's Health Service System uses technology to enhance patient experience, and to optimise operations and management of the healthcare facility. This includes cleaning & hygiene, queue management and mapped patient journey, dispensing of PPE to staff and of medical supply to patients. We also enable ease of access to information by hospital staff, management, and other relevant regional stakeholders.

## Building Optimisation and Management Technology

Advannotech enables the Interoperating of facilities systems and infrastructure that communicate with each other, to facilities management teams, and the FM Teams back to the systems.

## Queue Management Solution

Improve your customer services now! Long lines of waiting customers may be signs of business success, but don't let the long waits inconvenience your customers. Advannotech has launched it's OnQueue Management Software, a complete software that allows businesses to optimize the process for customers as they line up and wait for their turn to be served, enhancing your customer service.

# Other Services

## Design

**Advannotech** works with you every step of the way, from the initial design process we want to ensure that the right solution is installed to suit your requirements.

## Installation

We always work around you to ensure installations are conducted and completed with minimal disruption to daily operations.

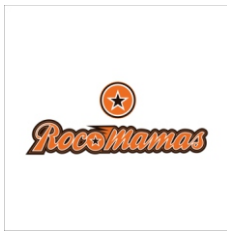

## Maintenance

Here at **Advannotech** we firmly believe that good and cost-effective technology systems are about being proactive rather than reactive.

# Clients Feedback
